CULINARY DELIGHTS & ENJOYMENT

A NEW SUSTAINABLE CUISINE

In our kitchen, fresh regional ingredients meet creative culinary artistry. Indulge in varied menus, seasonal specialties, and lovingly prepared dishes – from a generous breakfast buffet to a delightful dinner. Whether light, hearty, vegetarian, or sweet, every palate will find its favorite here.

Our Cuisine – in Harmony with Nature, Time, and Flavor

Our cuisine is constantly evolving. We prioritize quality ingredients, seeking harmony on every plate while keeping up with the latest trends.

But that's not enough anymore — sustainability has become a priority for everyone!

Right after the lockdown, we launched a project to refine our excellent culinary style, perfectly in tune with the region. We didn't need to reinvent anything: our grandmothers' methods were already sustainable.

We've created our own gardens to grow the majority of the vegetables used in our menus, ensuring fresh ingredients daily during harvest seasons.

We've also built a network of small producers who share our philosophy, providing us with fresh, local products. For seafood and other items not available in the mountains, we rely on suppliers committed to sustainability.

We are aware that complete sustainability is an ideal, but through the choices we make today, we can contribute to a better tomorrow.
